

VICTOR OKOYE – Front-End Software Engineer

victor.c.okoye@gmail.com | [GitHub](#) | [victorokoye.com \(portfolio\)](https://victorokoye.com) | [linkedin](#) | +2348028845693

Front-End Software Engineer with 5+ years of experience architecting and shipping production-grade web applications using **React.js**, **Next.js** and **modern JavaScript**. Led the redesign of a core **ERP interface** improving operational efficiency by **25%**. Delivers **scalable, high-performance** UIs for B2B and eCommerce platforms **end-to-end** – from architecture through deployment – with strong focus on code **quality, maintainability**, and **user experience**.

TECHNICAL SKILLS

Languages & Frameworks: TypeScript, JavaScript (ES6+), React.js, Next.js, Vue.js, HTML5, CSS3

Engineering Practices: Component Architecture, REST API Integration, Responsive Design, Cross-Browser Compatibility, Performance Optimization

Tools & Workflow: Git, GitHub, Version Control

Personal Projects: FORGE (e-commerce), NovaBrief (SaaS), others — see [victorokoye.com \(portfolio\)](https://victorokoye.com)

PROFESSIONAL EXPERIENCE

Optisource Technology Solutions — Front-End Engineer

April, 2025 – Present | Remote (UK)

- Architect and build production features using **React.js/Next.js** as the core technology stack.
- Drive development of scalable **B2B technology solutions** that streamline operations for business clients, contributing directly to platform performance and usability.

Technology for Social Change and Development Initiative (Tech4Dev) — Frontend Developer

July, 2025 – January, 2026 (7-months contract) | Remote (UK)

- Engineered front-end features with **React.js/Next.js** for **NAKISE program**, an initiative supporting employability, entrepreneurship and workplace efficiency among graduates and undergraduates.
- Collaborated with cross-functional teams to build, optimize, and maintain internal company applications addressing a range of business challenges.

DEV47 Agency — Freelance Front-End Engineer · Part-time

November, 2024 – Present · Part-time | Remote (Nigeria)

- Serve as sole Front-End Engineer, owning end-to-end delivery of scalable technology solutions for client organizations – from architecture through deployment.
- Independently built wearsbylegend.com, a production eCommerce platform for a body-wear brand.

Premium ESOWP Limited — Front-End Developer

May, 2022 – April, 2023 | Nigeria

- Developed websites and apps for schools and businesses using **HTML, CSS, JavaScript, jQuery, Bootstrap, React.js**.
